**Course Methodology**

This course meets twice a week and the material is hard. You must study all week rather than the night before the class meets. This course is the key to passing the Regulations CPA Exam.

**Professor’s Expectations of Students:**

In general, you should assist the instructor in creating a positive, supportive environment for learning by staying engaged in the course and actively participating in all online discussions.
Student's Expectations of the Professor:

In my role as your instructor, there are certain things you can expect from me including: well-organized and engaging learning experience, response to emails within two (2) business days, and feedback on all work submitted within 7-10 calendar days.

Grading and Evaluation Criteria

Over the semester, you will have a variety of opportunities to earn points towards your final (overall) letter grade in this course. This section of the syllabus describes the assessed work you will be doing and how overall (final) letter grades will be computed.

Final Course Grades

Grading and Evaluation Criteria

Grade: Average of the highest four examination scores, No make-up examinations are given. There will be five examinations. One of the five examinations will be 12 daily quizzes. Two daily quiz grades will be dropped. You must be present for the entire class period in order to take a daily quiz. These quizzes may be given at any time during the class. If you believe that an error has been made in the grading of a test, provide evidence of such an error within 7 days of the date the exam is returned. After the 7-day period, no change will be made in the score. If the test date is changed, you will be notified by at least two class periods before the scheduled examination date. In order to have an examination setting similar to the CPA examination, all tests will be closed book. You must make an oral presentation each week if you are registered under ACCT 6520. No extra points are given for additional work. If you are not in class when the test was handed back, you must come to room 209 in order to receive the test. If you do not turn in the quiz or test when the professor states the time is up, the test will not be graded. The daily test score for the examination day will be 10% of the examination grade rounded.

NOTE: Since a daily quiz is given often, you should not take this class if you plan to miss several classes.

FINAL GRADE: Due to several laws and court cases pertaining to the privacy of student information, grade information will only be available through the official university web site.

Only students registered for this class are allowed in the classroom.

[state law]

NOTE: Congress has several different bills pending which would result in the most significant tax changes since 1986. The bills may or may be passed.
ELECTRONIC DEVICES: Electronic devices, such as cell phones, are to be turned off in class. If such devices go off in class, you will receive a zero on your highest daily quiz grade.

Final Course Grade:
COURSE GRADE: The course grade will be assigned on a + and – scale. The course grade will be assigned on the following basis (grades are not rounded):
A+=97-100; A=93-96; A-=90-92; B+=87-89; B=83-86; B-=80-82; C+=77-79; C=73-76; C-=70-72; D+=67-69; D=60-66; F=Below 60.

GRADING POLICY: Bases on prior classes, the median for all of the tests was approximately 76. If you make an F or D, this is the grade you will receive.
