This is an accelerated version of Microeconomics, and we will cover a semester’s worth of material in 13 class meetings. Consequently, there may be times when you will be required to cover some of the material outside of class. While attendance is not mandatory, it is crucial to your success. At the beginning of each class there will be a short quiz on the previous class's material. The time allotted for these is 6:00 – 6:20, and no one will be allowed to begin a quiz after this. There will be approximately 8 quizzes, and the two lowest grades will be dropped (quizzes cannot be made up; therefore if you miss one it will become one of your "drops"). The remaining 6 quiz grades will be averaged and the score will become 1/3 of your final grade. If you miss more than 2 quizzes it will adversely affect your grade. The sum of your quiz grades will be divided by 6, regardless of the number of quizzes you take. Your quiz average will represent 1/3
of your final grade. The remaining 2/3 will come from the scores on the 2 Tests. Tests can be made up with prior approval of the instructor and in the case of an excused absence.

**I do not offer extra credit opportunities.** I also reserve the right to substitute a problem set for one of the quizzes.

Power points used in class, problem sets, and solution sets will be available on the UMdrive in my public folder. The location is: [www.umdrive.memphis.edu/public/jepley](http://www.umdrive.memphis.edu/public/jepley)

Help is available in the Econ Lab on the main campus, or through me at a mutually convenient time.
